

I know we argue.  
I know we fight.  
But I love you,  
With all my might

I love every night  
I love you every day  
And there just one thing,  
I want to say

I love you baby,  
And I'll always show it  
Whenever you down I'll always say it  
I love you baby till the end of time  
I love you baby so please stay mine
